

VISITING BY RIVER - MNCC VISITOR MOORINGS

We have a limited number of visitor moorings available for cruisers and narrowboats up to 50ft. Occasionally, a mooring suitable for boats up to 60ft may be available. If you wish to use MNCC visitor moorings then please contact our harbourmaster, prior to your arrival, at harbourmaster@middle-nene-cc.co.uk, providing details of your boat name, which club you are from, and expected date of arrival. If you are visiting MNCC for the first time, our harbourmaster will be happy to provide you with essential information such as the location of elsan and water points. Please note that electrical hook up is not guaranteed and is only available at weekends while our generator is running.

Emergencies

MNCC is tucked away off the A605 with no signage and there is no post code. If you have to summon assistance in emergency situations it probably best to use 'What3words', which are – **owes tensions afterglow**. These three words are our unique address that marks the entrance to the main gate at MNCC and will enable emergency services to pinpoint our exact location. For information, the grid reference of MNCC is TL015810. There are also phone numbers at the entrance of the Mill House for any club related issues that you feel need reporting.

Please note that all visiting craft must be appropriately licenced and insured.
